

Spanish Howitzer

Spanish Howitzer

This relic of the Spanish-American War was given to the state in 1900 by the United States Department of the Navy. The bronze trophy gun came from the "Maria Theresa," a Cuban ship sunk by the second U.S.S. *Iowa* in the battle of Santiago. The cannon was taken from Estrella Battery, the shore defenses at Santiago de Cuba. The muzzle loader has a smooth eight-inch bore.
